Cullinet's additional list
(see attached)

Central Intelligence Agency

Washington, D.C. 20505

February 12, 1987

Mr. John Kelley
Deputy Director, IRM
Agency for International Development
SA 14, Twin Towers, Bldg. #2
Washington, D.C. 20523

Dear Mr. Kelley:

I am writing to invite you to participate in the Federal IDMS/R Data Base Advisory Group. This group, formed last year, consists of senior Federal Information Resources Management (IRM) officials whose organizations are currently using the Integrated Data Base Management System (IDMS) developed by Cullinet Software, Inc. Many Federal organizations such as ours have made significant investments in Cullinet's IDMS or IDMS/Relational(R) as the basis for many of their administrative and "corporate" systems. The objective of the advisory group is to share concerns, develop common requirements, and ultimately influence the product strategy and support provided to the Federal community by Cullinet. Through this forum senior Cullinet officers provide information about future trends in their products and respond to our requirements.

Our next meeting will be held on Wednesday, March 4, 1987, at the Comptroller of the Currency third floor conference room (3A), 490 L'Enfant Plaza, S.W., Washington, D.C. We will begin at 8:30 a.m. with coffee and pastry, followed by welcoming remarks, administrative details and introduction of new members. One of two presentations will be given by Bill Casey, Cullinet's Vice President of Development for Work Stations, who is also one of the authors of the original Cullinet data dictionary.

STAT
STAT
It is important that you telephone my assistant, _____ by COB February 20 if you plan to attend the meeting or send a representative in your place. I hope that you will be able to come and I look forward to meeting you.

Sincerely,

STAT

Deputy Director
Office of Information Technology
